Danco S.A. is a rapidly growing, family owned company situated in Orestiada, in Northern Greece, which processes, packages and trades a wide variety of typical Greek products.

The company was founded by its current Chairman and CEO in 1997, initially trading dairy and delicatessen products in the region.

During the period from 1997 to 1998 **Danco S.A.** invested heavily for the establishment of two packaging units, for the processing and packaging of table olives, the standardization of dairy products and also the processing and standardization of pickles and pickled vegetables.

In **2008**, the company introduced Greek feta cheese, white cheese, extra virgin olive oil, sunflower oil, honey, glucose and flour to the market, under its own brand names, and also started its export activity in the international markets.

Danco S.A. aims to continue as a financially healthy, reliable and flexible company in the future and to strengthen its presence to the international market.

Credibility, consistency and team spirit are basic values of the philosophy of the company, which aims to optimize its productivity levels, through research and innovation, and to focus on the processing and trading of natural, quality and hygienic products which fully meet the requirements of the modern customers.

The company invests to constantly upgrade all operational standards, production, knowhow and skills of its personnel, in order to offer an even higher level of support, commitment and service to its clients and collaborators.

DANCO S.A.

Processing and Packaging of Food Products
